

We are looking for you to join our international team of successful Chip Design and Verification Engineers in our ChipGlobe d.o.o. Belgrade Design Center for 3 months

Internship – RTL Design for ASICs (f/m/d)

ChipGlobe is focusing on RTL Design – and Verification Consulting with both Insourcing (at Customer premises) and Outsourcing (ChipGlobe Design Center) working models. Our teams work in a global setup with ASIC design, verification and software teams in major semiconductor companies, focusing on markets in automotive, telecommunications, security and networking. ChipGlobe headquarters are located in Munich, Germany with a ChipGlobe Entity in Singapore and a ChipGlobe Design Centers in Dresden - Germany, Belgrade - Serbia and Ho Chi Minh City - Vietnam. We are more than 90 engineers with an experienced management team. Based on the huge experience of our staff we manage and execute projects in a well-communicated, success-proven and sustainable way.

We love what we do, and we do what we love.

We are offering you a practical and latest Industry Trend Knowledge build-up

- ✓ Paid Internship is offered to fresh graduates or final year students of Electronics/Computer Engineering in a stable, German Chip Design/Verification Company for Semiconductors, aligned in its business ethics and conduct with major tier 1 companies.
- ✓ Opportunity to work with access to a professional Software and EDA environment of big semiconductor companies.
- ✓ Design IP from scratch based on practical training materials developed from commercial projects. This will give you a kick-start in your expertise.
- ✓ Stable and organized German working environment.
- ✓ Intern will have adequate support from senior engineers of ChipGlobe, which will guide Intern during the internship. Good results and development of new skills ensured.
- ✓ Internship will last 3 months, and the job could be offered to a successful candidate.
- ✓ Internship will be held in modern business complex GREEN HEART in Novi Beograd.

Job requirements – Technical Skills

- ✓ Basic knowledge in digital electronics and RTL coding (Verilog, VHDL or SystemVerilog).
